CARLOAD OF ALFALFA HAY.

Was Shipped by J. H. Turner to Southern Market Yesterday.

J. H. Turner, the hay man on the West Side, shipped the first car load of alfalfa hay shipped out of Kansas this season. The car was loaded and sent to Texas yesterday. This car is of the first cutting of this year's crop and is of the finest quality of hay. Sedgewick county takes the palm in the first car load of alfalfa shipped this year, and it was as fine quality as could be raised in any section. This first shipment will be followed by hundreds of tons during the summer and fall, as Kansas alfalfa hay is in demand in all sections.

COLORADO FLYER STARTS.

Magnificent Train Makes First Trip Today.

Today the Santa Fe puts on the Colorado flyer which runs every second between Kansas City and Denver. This train is equipped the same as the California Limited train, which runs during the winter months, and is one of the finest trains in the west. It consists of a compartment car, a 12-seat chair car, an observation car containing ten sec-

HAIR WON'T FALL OUT.

If You Kill the Dandruff Germ With the New Treatment.

John H. Fuller, a well known citizen of Colfax, Wash., says: "I had dandruff so badly that it caked on the scalp. Herpicide completely cured me." George H. McWhirter of Walla Walla, Wash., says: "Herpicide completely cured me of a bad case of dandruff of 30 years' standing." They took the only really sensible treatment, a remedy that destroys the dandruff germ—Newbro's Herpicide. Stop dandruff, hair won't fall out, but will grow naturally, luxuriantly. Always itching instantly and makes hair glossy and soft as silk. At druggists. One bottle will convince any doubter of its merit. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. Moore Drug Company, special agents.

SEMI-ANNUAL LOVE FEAST.

Dunkards Held Foot Washing Last Night.

The German Baptists, or Dunkards, as they are usually called, are holding their semi-annual love feast at their church on Fairmount. Last night the feast and foot washing was held and the exercises will continue today. Many Dunkards from distant points are in attendance as this is the largest and most important church of this sect in southern Kansas. The annual conference is also being held.

BUSINESS SINCE THE FLOOD.

Wichita Live Stock Market Has Come to Stay.

Since the high water closed the Kansas City stockyards, the receipts of hogs at the Wichita yards have been increased but all of the hogs found buyers here. The very fact that this unexpected supply was taken care of shows that the Wichita market has come to stay.

Cuthby is enlarging the capacity of his plant and fold already has one of the most complete packing houses in the west. There is no question that just as soon as it is demonstrated that the regular supply of hogs on this market is going to increase, the Terminal packers will make their arrangements to kill more hogs.

Cuthby did his work last week when the receipts were heavy. He gave the commission men to understand that there would be a market here for all the hogs that came. His house was run to its full capacity and nine carloads were taken for the Cuthby house at Los Angeles, California.

These nine carloads were sent out over the Santa Fe last night, with O. C. Horn in charge. The distance to Los Angeles is 1,700 miles. It is a long distance to ship hogs, but they will be sent through without unloading, arrangements having been made to feed and water the hogs in the cars.

There is one feature of the business at the packing houses that is causing a good deal of comment. That is the great num-

ber of fine corn fed cattle that are being killed. It is claimed that the people in this city and surrounding towns are learning to eat good beef and stockmen are asking how the packers can keep up the supply of that kind of beef. They want to know where they can get that kind of cattle six weeks from now.

Cudaby and Dold each filled their coolers with corn-fed beef last week and yesterday Cudaby received a carload of corn-fed steers, fed by C. C. Fritz, of Maize, that were fancy. They averaged 135 pounds and showed a fine finish and big fat.

MANY POUNDS OF CANDY.

One Traveling Man Sold 15,000 in Oklahoma.

A traveling man who was in the city yesterday stated to the Eagle that he had just returned from a week's trip into Oklahoma and during that time he had sold 15,000 pounds of candy to merchants in the territory. This is a small lot of candy, but represents only a small amount of the sweets consumed in that section. This traveling man makes quarterly visits to the territory, but this is the largest business he has ever secured in so short a time. There are other firms making that territory, but all of this goes to one firm and is enough to keep them mixing and melting glucose, sugar and other candy ingredients for one month.

EPIDEMICS PREDICTED.

Physicians Declare Much Sickness Will Follow Floods.

The best physicians all over the country are strongly advising that extreme caution be used in selecting water for domestic consumption. The floods have contaminated many of the customary sources of supply. The Washington Post says that "the records show that all great floods are followed by epidemics of malaria, typhoid and other fevers that result from the use of impure water," etc.

The cost of a single case of typhoid, if put at interest, would furnish an income sufficient to supply the average family with the Holland Yeast company's Crystal Water for all time. Distilled or block tin-aerated with sterilized air—its purity is absolute.

CHRISTIAN ENDEAVOR PLANS.

Societies Preparing for International Convention at Denver.

The Christian Endeavor societies of the city are making preparations for the international convention, which will be held in Denver from July 4 to 12. Mr. John Davidson of No. 1, will attend the state convention, to be held the latter part of this week at Emporia. When he returns his society will give a social, probably on Friday, June 26, to secure funds to defray the expenses of the delegates to the Denver convention. On the Sunday following the society will elect the delegates. All of the societies in Wichita expect to be represented, and it is likely that others besides the delegates will go, as it will be a delightful trip to take during the heated season in July.

Mutoscope Parties.

The latest thing in Wichita is mutoscope parties. A number of ladies make up a party and visit the mutoscope parlor at 256 North Main and see the mutoscope pictures. Since the great rush and crowds of the past week in the city it will be more pleasant for women this week, and several parties are being organized to visit the parlor during this week afternoons and evenings.

TO CHILDREN'S HOME.

Money Cleared on Baseball Game Given to This Institution.

The management of the Elk-Mason ball game has decided to give the proceeds to the Children's Home, and not to the flood sufferers, as was stated in yesterday's Eagle. They say that in their opinion charity should begin at home and that the Children's Home can make the best use of the money. They wish to thank all those who aided them in the undertaking, either by donations or by attending the game. About \$50 was the amount cleared.

DISTILLATION

Now Recognized as the Only Dependable Process for Water Purification.

The fact that lime, the element that makes water "hard," is extremely destructive to health, is gradually becoming a matter of general knowledge. As this knowledge spreads the people are having recourse to distilled water and more than two thousand plants are now in operation in the United States supplying this life-giving fluid for family use. Distillation is the only process that removes lime from water. Being in solution, it passes unchanged through the finest filters, and boiling only intensifies the difficulty by evaporating a part of the pure water, thus concentrating the lime in what remains.

DATE WAS CANCELLED.

Stereopticon Lecturer Could Not Reach Kansas.

The lecture and stereopticon views that was to have been given by the Presbyterian societies of Christian Endeavor last Friday night, will have to be cancelled because of the high water, and all dates in Kansas and Nebraska are called in. Those who have purchased tickets can have their money refunded by calling on John P. Davidson, at the Western Lithograph company and presenting their ticket.

Fitting The Eyes

With proper glasses is quite an art and understood by very few persons. Your eyes can be benefited in a very short time if you will only get them properly fitted. Your eyes can be injured in a very short time with wrong glasses. Prof. Samuel, who is located at 133 North Main street, is being recognized as the greatest expert in this line and when you are fitted by him you are sure not to run any risk in having your eyesight ruined. It costs you no more with him than with those that have no experience.

A Surprise

A fellow came in the other day and after getting such prices as \$4.90 on Kitchen Cabinets, and 40c, 50c and 60c per dozen on Glass Fruit Jars, and after stringing us up, said: "I did not know that you were here." Now this is the way with some of the people who are paying from 10 to 30 per cent too much for their goods.

I handle a little of everything it takes to keep house—a general line of Furniture and odds and ends of everything else. We have a Jeweler's department. In this you will find Seven Jewel Elgin and other Standard Watches at \$4.00; other grades priced accordingly.
